Most companies have no idea how much each color page cost - do you? As an example, a color page printed on an HP Color LaserJet CP4005dn at 20% coverage cost \$0.11 per page for *supplies only* - this does not include the cost of purchasing or maintaining the printer. If you double the ink coverage, the cost per page will also double from \$0.11 to \$0.22 a page! Go2FREEcolor's free printer offer provides a fixed cost per page so page coverage is no longer an issue! Since service is included for **FREE**, there is no need to worry about repair charges down the road. Go2FREEcolor.com is an Authorized Reseller for Xerox and uses genuine **Xerox brand ink** and **Xerox certified technicians**.
